Third Circuit Court of Appeals

Jared Trent is a Senior Director at FTI Consulting and is based in Houston, TX. Mr. Trent has over a decade of experience in e-discovery and computer forensics, has testified as an expert witness as well as conducted direct and cross-examination of expert witnesses, and has extensive experience in the examination of computer systems and media. He has performed forensic collections and investigations in countries spanning North and South America, Africa, and Europe.

Prior to joining FTI Consulting, Mr. Trent was a prosecutor in Pennsylvania where he specialized in fraud and computer crimes. He successfully prosecuted one of the largest home improvement fraud matters in the state. He was appointed to the Pennsylvania Bar Association's Cybersecurity and Data Privacy Committee where he is drafting recommendations for the Pennsylvania data privacy law.

Before his time as a prosecutor, Mr. Trent worked as an expert in computer forensics and e-discovery and as a computer forensics instructor. He has trained agents from the FBI, SEC, Royal Canadian Mounted Police, Scotland Yard, and other local and national law enforcement agencies.

Mr. Trent has worked on matters ranging from mergers and acquisitions, financial restatements, intellectual property theft, anti-money laundering, contract disputes, and embezzlement. He has clients in the energy sector, technology, food processing, hedge funds, healthcare, and manufacturing.

Mr. Trent served in the United States Marine Corps as an Intelligence Analyst where he received multiple awards and citations, including for his efforts in identifying and preventing a major threat to U.S. forces during the initial days of Operation Iraqi Freedom. Subsequent to the Marines he worked for Booz Allen Hamilton in cyber defense at the Joint Task Force – Global Network Operations, and as a Marine reservist assigned to the Africa watch desk for the Joint Analysis Center in Molesworth, England.
