Re: Butte Fire Cases (JCCP No. 4853) Settlement Agreements

Dear Counsel:

As part of its January 17 Order, the Court directed PG&E to notify plaintiffs with whom it reached settlement agreements by today whether those agreements would be honored prior to PG&E's anticipated filing for reorganization. We have been authorized to communicate the following information on behalf of PG&E:

During the period prior to a Chapter 11 filing, PG&E's emphasis will be on maintaining operational integrity and enabling continued safe delivery of natural gas and electric service to the Company's millions of customers. PG&E's cash resources during this interim period will be directed toward meeting those objectives. The Company's goal is to pay invoices and other commitments as they come due prior to a Chapter 11 filing. However, PG&E cannot commit that all invoices and other commitments will be paid as such obligations come due given its liquidity constraints.

Very truly yours,

Kristen Bird
